Forecast for Wednesday 13 Dec 2023

Weather: Scattered showers early morning, possibly wintry over the highest summits. However, any showers soon dying out to leave much of daylight hours dry and bright with some weak winter sunshine. Cloud gradually thickening and lowering during the evening, some patchy rain possible by midnight, perhaps wintry over the summits.

Chance of cloud-free hill tops above 700m: 90%

Low cloud and visibility: Nil significant cloud during daylight hours, but patches or occasional cloud, base 600 to 900m early and late in the period. Visibility mostly very good or excellent, but moderate to very poor in rain and cloud early and late in period.
